- No "Collaborative" effort allowed. Students are expected to work themselves.

- Its okay to discuss, but not okay to share code or ask others to code for you!!!

- Penalty for late submissions.

- *Severe penalty for academic dishonesty.*

1. Profile the code written by you for HW2 and HW3 using the tools discussed in the class (gprof, valgrind etc).

2. Provide a detailed call graph of the code.

3. Measure the hit/miss rates for the instructions. And provide the report for the same.

4. Discuss the performance of your codes in a report.
